

Chapters to Go™

A quick guide to using the Chapters to Go download feature

Extend the value of your Books24x7 subscription with Chapters to Go. This feature provides chapter-level downloads in three different file formats – PDF, Kindle-ready mobi or e-PUB – for offline reading or printing.

How it works

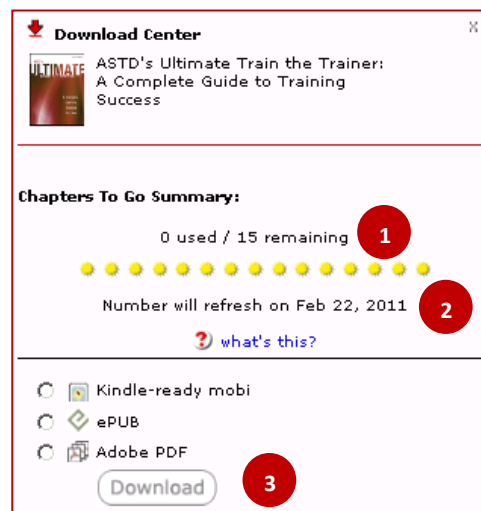

Note: If your Books24x7 subscription includes collections that already offer downloads, they remain unaffected by this option.

- You are allotted a quota of 15 downloads every 90 days that you can use for any chapter and collection that has this feature enabled.
- Your quota of downloads is refreshed every 90 days, resetting back to your allotted quota regardless of whether you have used all or only a portion of the previous allotment.
- You can distinguish *Chapters to Go* from other downloads by an icon  that is displayed on title lists, Tables of Content and content pages. Only these 'premium' chapters counts towards your monthly allotment of downloads.
- While in a chapter, the red download arrow  download will appear within the Browse Tools. Clicking on this button will bring up the Download Center enabling you to download the chapter without leaving the page.

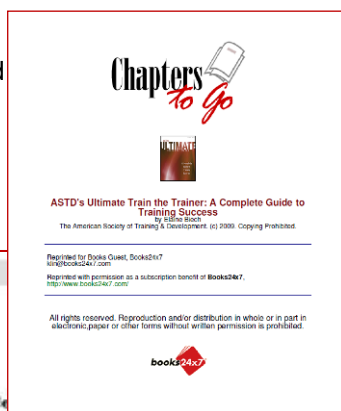

In the Download Center, you can:

- View the number of downloads you have used and the number remaining
- View your refresh date
- Download the chapter using the 'Download' button

NOTE - Each chapter download is watermarked with your name and organization as well as copyright information.
